Arts from the Heart: A Music Together® Program
Families today are looking for ways to connect with each other and their communities. Come to the library and meet like-minded families and enjoy engaging with your child in a play-based environment. In addition to connecting and having fun, you will be investing in your child’s education. Studies show that early music education has numerous benefits, including improved motor skills, language development, and cognitive thinking. In a Music Together® class, babies, toddlers, preschoolers, and the grownups who love them gather for 45 minutes of fun-filled music time. Your teacher will lead you in music activities that support your child’s music-learning and overall development. It’s so much fun you won’t realize how much learning is taking place! Our program is designed for children birth through 5 years of age. Please register!
